

IT'S TIME FOR A CHANGE

Obama Era Letter One

Yahweh helped Seersgate prepare this letter in a previous season that took way before the Year 2019, yet we updated the letter on June 3, 2022.

Dear Mr. President:

Mr. President, your road seems very long and very hard. There is always a moment when you regret having made this major health care bill. But there is a great plan to take you from this mess. There is a great plan that would be able to shift the way details look in your government structure that would bring a specific order to withstand the strain and stand in this turbulent way.

Your government has been infiltrated by those who will use you to get ahead. They are greedy, looking for your money—referring to U.S. wealth and resources. What plan can you give to secure the current wealth and resources with the nation's full backing in the details you seek in private meetings? Will it be through these dealings that can hurt one group while crippling another group?

How can this nation continue to pretend it moves in united ways? A title with the word "united" does not say there will be united ways, what you dreamed. A nation united in a common plan will not manifest without a way to deal with all root details left poisoned.

First, get rid of the people near you who have a motive that cannot be in unity with the ulterior goal. You seek those who will hear the truth while having those who give deceptive ways without any shame in those details. What about plans received from Yahweh, the Great Way King Jesus? Have you considered that He has a great goal that

you could embrace in giving this nation a genuine hope that your staff in the White House will not write?

Have you considered changing out your administration to replace them with those who will be able to walk in Kingdom authority, with the Great Way living within, where they will actually be able to walk in Kingdom rule over their sphere of influence, in earthly details?

Have you considered that you should vote against this health care bill and look to a grander way of helping the people? What will be able to take care of so many people with these illnesses? What would be a powerful solution to your major dilemma? How can you expect to change the nation when you place other gods before the One True God named King Jesus? Repent, for He must rule within you so you will be able to make the better way in choices to help the nation.

Your earthly wisdom has failed. You must look with Kingdom vision to know what plan to follow through and embrace. Appoint people based on the King's way—with a Kingdom authority. This position has nothing to do with Church and State, blending in a way to overrule the people's will. It will bring Kingdom rule—only to change the details around you to reflect a way of living that would bring true peace, with other ways to impart deep healing.

God's plan is also spiritual, and you are a spirit in a fleshly tent, with a soul that makes the decisions. Now it's time for you to let your spirit take over—to follow the Great Holy Spirit's counsel, to run the nation known as the United States of America with Yahweh's backing. Isn't that better? Who cares if you have to say you're sorry for the mistakes you made. Say it, but then make it clear that you seek a more excellent counsel not given through earthly drinking.

Get counsel to run this nation but get it through the person who hears the Great Holy Spirit's will. People already think you have failed them. This standing in the office is truly where a popularity vote can be discarded. Now give the One who created you a chance to show you His will in changing the nation so that there is a reflection of the King's will in each detail.

You will be just well if the President chooses to yield to godly counsel from Yahweh, His way. Will you first accept Yahweh's Spirit to live in you by taking King Jesus as your God and have Him forgive you of your wrong ways against Him? We all have sinned. We all have fallen and need King Jesus to wash us in His precious blood. Will the Great King move in you to help you lead this nation with His wisdom? It's truly your choice.
